KONICA MINOLTA

MFP Kiosk Application

In a growing world of self-service kiosks, MJ Flood offers a kiosk solution for multifunction printing.

Deploying your unattended multifunction printers in (semi-) public environments i.e. co-working & shared offices, universities, libraries, supermarkets, hotels and post offices etc., can be a real challenge. Operating the device can be very complicated. Extensive registration might deter users. And the setup of a complex document accounting system can be experienced as too much hassle.

Revolutionise Printing

To avoid all these obstacles KUARIO developed the MFP Kiosk application. The MFP Kiosk App transforms the MFP into a 'web-shop'. It's easy to use design enables a straight forward order and payment process. With the KUARIO MFP Kiosk users can walk up to the MFP and print documents or photos, make copies, scan or send a fax using the 'shopping cart' just like a web shop.

The MFP Kiosk App offers a revolutionary new way of mobile printing. KUARIO turns the smartphone into an intelligent hub by scanning a QR code on the MFP display. All documents available on the phone or any cloud storage (Office 365, OneDrive, Google Drive, Dropbox, iCloud etc.) can be printed directly at the MFP.

Office 365   OneDrive   Google Drive   Dropbox   iCloud
Full Control

With the KUARIO MFP Kiosk application it is possible to fully manage and monitor MFP's, set products, pricing and check sales made at the MFP via one single dashboard in the cloud.
Easy Mobile Payments

Users can pay via the free KUARIO mobile App on their smartphone, available for Android and iOS. The KUARIO mobile App is specifically developed to tailor fast and easy cashless payments at an unattended MFP kiosk. The mobile App gives users full insight and control over transactions and expenses. KUARIO has also developed a range of Pay Boxes for MFP's to enable payments with cash, coins only and/or contactless debit & credit cards.

The KUARIO mobile App covers multiple international and local payment methods such as:

VISA   MasterCard   PayPal

KUARIO MFP Kiosk Application

KUARIO benefits:

- Pay for Print, Copy, Scan and Fax at the device
